Wedding Tips...

- ♥ **Wedding Photography:** The wedding cake is one of the most important elements of your wedding. Did you know that next to the bride and groom, the cake is the most photographed subject? It's well worth the time and money spent to make your cake as special as can be.
- ♥ **Cake Top Storage:** It is traditional to save the top layer of the wedding cake, to be eaten on your first anniversary. Here's how to store your cake so it still tastes good next year:
 - ◆ Put it in a box
 - ◆ Then 3 plastic bags.
 - ◆ Wrap it in aluminum foil.
 - ◆ Place in freezer, away from the sides to prevent defrosting. (Chest type or upright is the best.)
 - ◆ Enjoy your anniversary cake while you remember your special day
